Statement of Claim.

Claim # 1 : ON the date of Feb 16 2010 NURSE ROBERTS REFUSED to give me my medication. NURSE ROBERTS ARRIVE in the pod to do pill call during pod REC. At the time I was in the showers, I had to get out of the showers. Then go to my cell which is upstairs. wait for the officer to let me in the cell. At which time he locked me in the cell. I had to push the emergency button in the cell and wait for him to answer before I could tell him to open the door and let me out for pill call. While all this was going on the nurse MS ROBERTS had finish with the other inmates and was packing up her meds. I came down the steps as she was coming out of the office. I tried to stop her and tell her I needed my meds. She would not stop to say anything to me. I told the officer who was accompanying her, officer COLLINS immediately that I wanted an emergency grievance. I immediately began to ~~submit~~^{submit} paperwork to show an paper trail.

Claim #2: ON the answer to my informal Complaint Lt. A. Mullins stated that officer COLLINS did not work in A Bld on that day. When I submitted my grievance to the warden. Lt. A. Mullins changed her statement and said COLLINS was working in the Bldg. It's all in the paperwork. They keep saying it is noted that I was seen in the pod socializing, but they never say who noted this at anytime. It couldn't have been nurse ROBERTS or officer COLLINS because they both was in the office and you can't see the showers from inside the office. It couldn't have been the Booth officer because when it all took place C/O COLLINS called them on the radio and they sent me to my cell as if I had done something wrong. The Booth officer

who was C/O Thompson called into my cell on the emergency intercom and asked me what happened. I then asked him for an emergency grievance, and told him what happened. So he couldn't be who they are talking about that noted seeing socializing. It happened right by the booth and he didn't even see that.

Claim # 3 : In the level II response they did not even address my claims about the medication being life sustaining, and that fact that nurse Roberts refused to give it to me. They didn't address the fact that chronic care medications are considered life sustaining. On the (level I) I stated that nurse Roberts consulted with the doctor or that an RN may consult with a doctor to determine the situation with medications. In the response on the informal that nurse Roberts stated it was not life threatening to miss one dose of my medications. Nurse Roberts couldn't make that type of call herself. By her saying she spoke with the doctor shows that nurse Roberts felt as though she had done something wrong. She was trying to cover herself. It shows malice on the part of nurse Roberts and the medical department here on W.B.S.P. Nurse Roberts was not qualified to make the decision she did with not giving me my medication.

Claim # 4: In the level II response, none of my claims to Director of Health Services were answered. Not any of them. They only talk about what Lt. A. Mullins said.
